

PORTABLE CHAIN DRIVEN GAS PIPE CUTTING MACHINE

Features & benefits

- Automatic high precision cutting machine with guide rails
- Portable light in weight yet robust
- Outstanding guidance and cutting precision
- Can cut any pipe diameter from 100mm and upwards
- Cuts upto 100mm pipe thickness
- Cuts bevel upto 45° on both the sides
- Operates on 220/110 AC volts single phase
- Electrically hand held remote control operated
- Standard chain used for clamping
- Cutting can be done in clockwise or anti-clockwise direction from both sides of the machine
- Easy mounting and operation

TUBOCUT-A5 is an oxy-fuel pipe-cutting machine equipped with motor and robust gear system. Together with the interlocking transmission chain links, Auto TUBOCUT-A5 travels smoothly around the pipe in all positions. Cutting operations are carried out from a handy remote controller.

TUBOCUT-A5

TUBOCUT-A5 is a motorized driven portable pipe cutting machine with remote control. The special guiding system with its fixed guiding rail guarantees a high cutting accuracy, especially while cutting large pipe diameters. By using the motorized, drive for trimming and beveling pipes highest quality will be achieved. The transmission chain consists of simply constructed, smoothly interlocking chain links. Due to the chain link's easy insertion and removal, a fast exchange for varying pipe diameter is guaranteed. The adjustments for bevel cutting result from an angle scale at the torch bracket.

SPECIFICATION	TUBOCUT-A5
Effective pipe diameter	100mm onwards
Cutting thickness	5 to 100 mm
Cutting shapes	Square & bevel (upto 45°)
Cutting speed	50-750 mm/min
Input power	AC220/110V, 1ph 50/60 Hz
Drive method	Motorized
Cutting torch	Injector type
Dimensions (LxWxH)	250x380x380 mm
Weight	12 kg

STANDARD ACCESSORIES	
Particular	Qty
Machine torch	1
Torch holder	1
Torch holder bracket	1
Standard chain	6m
Set of spanners	2
Set of nozzles	3
Wire motor remote	1
Operation manual	1
